Experience

Jun 2024 - Present · Delhi
Senior Lead UX Designer
Espire Infolabs
Client - Aventum

As a Senior Lead UX Designer at Espire Infolabs, I manage the entire UX design process for five projects of a UK-based insurance company **“Aventum Groups”.** From the initial ideation phase to the final delivery, I ensure that each project meets the highest standards of user experience. My role involves collaborating with cross-functional teams, translating client goals into intuitive designs, and delivering solutions that align with business objectives while enhancing user satisfaction.

Nov 2023 - Present · Delhi
UX Consultant
Brightchamps

As a UX Consultant with BrightChamps, I manage the design of landing pages, focusing on creating impactful and user-friendly experiences. Through strategic design improvements, I've successfully increased lead generation by 30%, contributing to the company's growth and enhancing the overall user experience. My role involves closely analysing user behaviour, and continuously iterating to ensure the landing pages drive engagement and conversions.
